CONFEDERATION
LIFE ASSOCIATION!
OF CANADA.
Head Office, Masonic Hall, Toronto.
CAPITAL.....$500,000.
Stock and Mutual Plans Combined.
Deposited with Dominion Government for Security of Policyholders, $50,000.

PRESIDENT—Sir Francis Hincks, K. C. M. G. Finance Minister of Canada.
VICE PRESIDENTS—Hon. Wm P. Howland, C. B., Lieutenant-Governor of Ontario;
Hon. Wm. McMaster, President Canadian Bank of Commerce;
Issued—Over 500 Policies first half-year.
This Association issues all the most approved forms of Policies—all non-forfeiting by charter. Its principle of non-forfeiture more favorable to assured than that of any other company.
A strong company which combines strength of capital, character and local influence and provides life insurance at the lowest safe rates without delusive promises of dividends, making a good dividend CERTAIN by decreasing the premium.
By its organization it enables each policyholder to deal with his own neighbors, stockholders in the company—men whom he knows will do justice to his family after he is dead, and also provides that its funds will be invested to develop the resources of his own country and locality.
A company with capital and breadth enough to be safe beyond question, with national extent and prestige, and yet a HOME company throughout the Dominion.

WILLIAM McCABE,
General Manager, Toronto.
The fullest information will be cheerfully furnished on application to
JOHN ROBSON, Government st., Victoria,
General Agent for British Columbia and Washington Territory. oc22

Insurance.

ROYAL INSURANCE COMPANY, LIVERPOOL & LONDON
Sproat & Co.
AGENTS FOR
BRITISH COLUMBIA.

The annual meeting of the proprietors of this company was held on Friday last, at the head offices, Royal Insurance Buildings, North John-street, Liverpool. Charles Turner, Esq., chairman of the board of directors, presided.

The notice convening the meeting having been read, the report, as follows, was taken as read:—

FIRE DEPARTMENT.

The directors have the pleasure of reporting that in this branch of the business the results of the year 1873 have been the most satisfactory, as respects the aggregate amount of profit realised, which the company has ever experienced.

The fire premiums for the period amount to £807,405 19s. 6d., and the losses to £436,190 10s. After the deduction of agents' commission and management expenses, the profit on the transactions of the twelve months, including interest, amounts to £216,227 16s. 5d. During the year the business in America has been reduced and it will accordingly be observed that there is a slight diminution of income, when compared with 1872. The account for "unearned premium for increased revenue" is therefore closed for the present, and the surplus carried to fire fund, which is thereby increased to £354,637 10s.

LIFE DEPARTMENT.

During the past year, 1406 new proposals were made to the company. Of these 1,099 were accepted and completed for £514,638, the new premiums thereon being £17,271 2s. 9d. The proposals declined during the period amounted to £121,744. The total income from premiums, after deducting re-assurances, amounted to £237,415 10s. 8d., and the interest received from investments (exclusive of that on the annuity funds) was £64,990 9s. 10d. The claims during the year were:—By death—original sums assured, £117,228 17s. 6d.; bonus additions thereon, £7,423 11s. 2d. By matured policies (including children's endowments)—original sums assured, £1,750; bonus additions thereon £134 15s.; total, £126,537 3s. 8d.

In the annuity branch the purchase money received for new annuities, together with the premiums on contingent annuities, amounted to £12,451 6s. 2d., and the interest to £7,544 9s. Thirty annuitants have died during the year, the annual payments to whom amounted to £1,473 2s.

The result of the operations for the year is that, after payment of all claims, annuities, and expenses of every description, £158,547 0s. 4d. has been added to the life funds, making the total accumulations of the life branch of the company £1,761,523 11s. 11d.

The quinquennial investigation of the life business will be made at the close of the present year, preparatory to the declaration of a bonus to the assured at the annual meeting in 1875. The method adopted at the investigation of 1870 for securing perfect accuracy in the calculations will again be followed, and a separate valuation of the liabilities will accordingly be obtained from an independent actuary, in addition to the valuation by the officers of the company.

During the four years now expired the mortality has continued to be below the expectation, nnd the life fund has been increased by a larger amount than in any similar period since the establishment of the company. From a review of the business at the end of the first half of the present year, it may be fairly anticipated that, after making ample provision to meet a somewhat higher rate of mortality, which the recent researches of the Institute of Actuaries shew may be anticipated, the balance of profit will be satisfactory alike to the shareholders and the assured. oc3

Daily British Colonist.

WEDNESDAY MORNING, NOV. 4TH, 1874.

L. P. FISHER, 20 and 21 New Merchants' Exchange is our authorized Agent in San Francisco.

The Royal Commission.

Now that the Government pop-guns have all been fired off and the smoke and fury had time to subside, a calm and dispassionate review of the case may not be considered amiss. It will be convenient to give a brief historical sketch.

On the 9th of February last an article appeared in the BRITISH COLONIST newspaper, wherein it was intimated that certain mineral lands on Texada Island had been taken up in a manner prejudicial to the public interest and that prominent members of the Provincial Administration were mixed up with the transaction in a way inconsistent with good government. On the 20th of the same month, the member for Nanaimo moved a Resolution for a Commission of Inquiry. The following words formed the preamble to the Resolution:—"Whereas certain statements have appeared in the public newspapers connecting the names of members of the late Government and of the present Government with proceedings of a questionable character in relation to Texada Island, in the Straits of Georgia; and whereas transactions are alleged to have taken place in respect to said Island of a nature prejudicial to the public interest; be it therefore Resolved,' &c. This resolution was seconded by the senior member for Cowichan, and it gave rise to a protracted and stormy deteate, in the course of which the leader of the Government exhausted every artifice in a vain attempt to induce the mover to become the accuser. An amendment was ultimately offered by a supporter of the Government affirming the abstract proposition that "before any resolution calling for an investigation into the conduct of any member of this House can be entertained, *some charge ought to be brought forward by some member of this House.*" This amendment having been ruled out of order, another was offered, also by a supporter of the Government, setting forth that "whereas the said honorable member for Nanaimo *has declined to pledge his belief of the truth of the said statments and charges*, this House is of opinion that there is no sufficient ground shown to justify it in moving His Honor the Lieutenant-Governor to issue a Royal Commission to enquire into the truth of the said newspaper statements." This amendment was carried. It is almost inconceivable that, immediately after pronouncing this opinion, the House should, at the bidding of the leader of the Government, turn round and, in direct opposition to the deliberate opinion thus placed on record, pass a resolution asking for the appointment of a Commission. And yet such is the fact.

The Commission was in due course appointed; and held its first sitting on the 24th of March, when the preliminaries were arranged and Mr. Robson was requested by the Commissioners to conduct the prosecution, which he continued to do throughout, although laboring under the obvious disadvantage of having at times two and even three lawyers engaged on behalf of the defence to contend with. The enquiry extended over eighteen sittings, in the course of which many witnesses were examined. It is not now proposed to attempt more than a hasty glance at the principal facts established in the course of the protracted enquiry. Messrs. DeCosmos and Walkem were taken up to Texada by Moody & Co. on their steamer. The chief topic of conversation was the iron mine. Mr. DeCosmos sought and obtained the job of "floating" it and the party drank success to his mission in flowing bumpers. Mr. Moody became communicative and told Capt. Devereux that he did not carry these ministers about for nothing, that he knew what he was about. He said he had asked Mr. Nelson to be one of the party, and that he had declined, saying he would not be connected with such dishonorable transactions; but, said he, "I'll be darned if I have any such scruples." The party returned to Burrard Inlet, where, meanwhile, the leading topic of conversation was the Ministerial trip to Texada, and the generally received opinion was that 'Mr. Moody knew what he was about, that he did not take members of the Government there for nothing." On their return there was a great rush for the names of British subjects to be used in pre-empting the mineral lands; and something like a dozen of names were ultimately obtained, being for the most part persons in Mr. Moody's employ, including clerk, book-keeper, &c., persons in respect of whom there could be no possible pretense to *bona fides* as pre-emptors. The pre emption papers were made out by clerks and the names of some of the parties actually appended thereto without any power of attorney, and were rushed through the various stages by a willing Government officer with the most unwonted haste and without any pretense of complying with the requirements of the law as to preliminary steps, occupation, &c. The Ministers return to Victoria. Mr. DeCosmos learned that another party had landed on Texada for the purpose of taking up mineral land. He became very much excited, rushed from the dinner table, and spoke to Mr. Dalby, a prominent member of the Texada Ring, who at once chartered a steamer and proceeded to Burrard Inlet for the purpose of manufacturing another batch of bogus pre emptions in order to secure more land and effectually shut out all others. This operation was accomplished with the same facility as the first. It was proved that Mr. Dalby told several persons that Mr. DeCosmos, in addition to having a commission for the sale of the mine, had an interest in it; "*but of course his name does not appear*"! It was proved that Mr. DeCosmos spoke and acted as if he held a large interest in the mine, and that such was the belief of those with whom he conversed on the subject. *Mr. DeCosmos confessed under oath that the minimum price set upon the mine by himself and Moody was* $250,000, *and that he was to receive a commission of twenty per cent., or* $50,000 *for selling it!* It transpired that, while at the Inlet, immediately on their return from Texada Island, several telegrams were sent to Mr. Dewdney, who had been employed to survey Moody & Co's. Hope Silver Mine, very mysteriously dismissing him, *that his bill was paid by the Government*, and that DeCosmos and Walkem (in the names of brothers, *prima facie* evidence of there being something wrong, something to conceal) suddenly became possessed of claims of presumed great value in these mines, without, as it would appear, having paid any valuable consideration to Moody & Co., thus substantially sustaining the theory that Walkem at anyrate preferred to take his reward in silver instead of iron. Can there be any doubt whatever in the public mind as to how these two Ministers came by these valuable lands? Such is a very brief and necessarily imperfect sketch of the case as it appears in the light of the evidence taken before the Commission,—and respecting which the Government organs have made such persistent and unscrupulous efforts to mislead the public mind. How much worse it would have looked had it been possible to extract the truth from the principal witnesses it is not for us to say; but no one who was present or, indeed, carefully perused our faithful report of the proceedings, and who noted the prevarication and glaring contradictions which brought down the repeated and severest censure of the Court and narrowly escaped the penalty for perjury can doubt that it would have looked very much worse. But, even taking the case as it stands, there are few, we fancy, who will be able fully and honestly to concur in the inconclusive verdict—"Not proven." Fewer still, we apprehend, will doubt the moral guilt of the inculpated parties. We question if there are to be found in the whole Province ten intelligent men who do not believe that the charges were substantially true, however far the Commission may have failed to elicit all the truth.

Daily British Colonist.

WEDNESDAY MORNING, NOV. 4TH 1874.

THE BRITISH COLONIST

Is the only Paper Published at Victoria that receives Regular Telegraphic Dispatches.

BIRTHS.

On Tuesday, the 3d inst., at 8:30 a. m., the wife of Mr. John J. Austin, of Victoria Arm, of a daughter.

Additional Cassiar News.

The Isabel had a stormy passage from Nanaimo to this port. The passengers were greatly crowded, but managed to enjoy themselves. Following are the names of some of the passengers on board: P. Murphy, J. Boland, Rath Bros., Thibert Bros., J. Walsh, J. R. Adams, J. Fraser, Chapman, J. Blum, S. Adler, T. Barry, W. K. Lear, J. Dooley, D. Scammon, M. Brown, J. Hanna, Lew Campbell, J. Barns, C. Cooney, Dr. Bowyer and wife (Sitka), C. Charity, F. Miller, J. Waddell, G. Cicero.

All the miners have money. The results have been good and everyone agrees that a country more extensive and richer than Cariboo has been discovered. John Giscome, one of the Charity Company on McDane Creek, says that the Deloire country will exceed Dease and Thibert Creeks in richness; that there is any quantity of ground that will pay from $10 to $15 a day to the hand. Nearly all the men will return, which is an excellent sign. The climate in the Deloire country is superior to that of Dease Creek and surroundings. At Fort Wrangel there are no supplies, and the miners, but for the small stock of Charles Brown, a trader, would have starved.

Weekly British Colonist.

Issued to-day, contains a full and correct report of the proceedings at the recent Reformed Church Meeting, and other articles of interest.

MECHANICS' LITERARY INSTITUTE.—At a meeting held last evening the President (Mr. A. McLean, read a report congratulating the members upon the progress of the institution during the past year; and Mr. Alex. Wilson presented a financial statement, showing the total receipts to be $2938 35, of which $1683 was the product of the monthly subscriptions. The expenditure amounted to $2782 35, leaving a balance on hand of $44. It must be borne in mind that this has been an expensive year, $597 50 of the outgoings consisting of the disbursements incidental to the removal to and alteration of the the building. The following gentlemen were elected to office for the ensuing year: Mr. A. McLean, President (re-elected); Mr. Hy. Woods, Secretary, Mr. R. Williams, Treasurer; and Messrs. R. Brodrick, T. Allsop, Alex. Wilson, Jas. Fell, C. Hayward and Wm. Wilson as Committeemen.

ANOTHER MISSING MAN.—From Mr. J. Boland we learn that on the 10th of last month an insane man named Daniel McDougall started from Dease Lake with Buck's pack train to go to Telegraph Creek. He kept with the train till it reached the Lava Beds, second North Forks of Stickeen River, where he started ahead of the train and was seen two days afterwards by Indians ascending a hill. He had a $200 watch and about $175 in gold on his person. A reward was offered by his friends for his recovery, and Indians searched dilligently for several days; but he was not found. The missing man formerly kept a saloon on Market street, San Francisco, and has a brother living at Alviso, California.

PEN AND INK SKETCH.—The Steilacoom *Express* draws the following picture of the democratic candidate for Congress: "He (Mr. Sharpstein) is a tall, heavy-set round-shouldered, proud gentleman, of about forty or forty-five years, with blurred, dirty-gray eyes, thin lips, the corners of his mouth betraying moroseness even when he is tempted to smile, while his sharp-pointed, crooked, ugly nose and long, crooked fingers really are signs that by no means aid to create neither love or respect. In picture-books are often seen portraits of pirates, pawnbrokers and receivers of stolen goods better looking than Mr. Sharpstein."

FLYING TO THE RESCUE. — The Chief Commissioner sailed yesterday for the Mainland, ostensibly to inspect the Westminster-Yale road, but really, it is suspected, to endeavor to rescue Saul and the *Profits* (especially the Profits) from the fate that seems impending. It is hoped that he will be able to reach Lillooet in time to show his manly form and make one of his *eloquent* speeches. The sight of the one and the delivery of the other would be worth 50 votes to the Reform Ticket.

AMONG the passengers by the Isabel was Mr. Lew Campbell of Bonaparte, who drove a band of beef cattle from Thompson River to Cassiar—narrowly escaping with his band from destruction, having followed the Government trail. He disposed of his cattle to Felker, who will kill them and freeze the beef.

U. H. & L. Co.—At a meeting of this company last evening the following officers were elected: — W. H. Huxtable, (re-elected) Foreman; F. Allatt, 1st Assistant; J. Thistleton, 2d Assistant; E. Granoini, (re elected) Treasurer; G. W. Cohen, (re-elected) Secretary; M. Salmon, Steward.

THE first Social of the season held in the Lecture Room of Wesley Church last evening was quite a success. Mrs. Humber gave the entertainment. Though the evening was unpropitious, about 150 persons were present. After tea the audience were interestingly entertained with recitations, readings, addresses and music.

THE steamer Enterprise sailed for New Westminster yesterday morning. Amongst those on board were the Resident Engineer, and Mr. Kinsman and Mr. Muirhead, who go to examine the site of the Penitentiary building now under contract.

CARR, late Collector at Fort Wrangel, and several other prisoners in confinement at that place awaiting trial, are compelled to saw wood.

DOWN.—The wires were down in all directions yesterday.

Justice's Court, Stickeen River.

TELEGRAPH CREEK, Oct. 10.

To-day A. Choquette appeared before Mr. Sullivan, J. P., to answer to a charge of supplying liquor to Indians at the Boundary Post, a quantity of which Constable Evans found in their possession. He pleaded guilty to the charge and was fined $60 or six months' imprisonment. The fine was paid and the defendant left rejoicing.

A trader by the name of Fraser was fined $20 for assault.

BLOOD POISONING.—The surviving subscribers to the Patriotic Fund during the Crimean war have been many times appealed to by some of those entitled to benefits therefrom to inquire into its management, and some years ago, it may be remembered, that there was an inquiry which brought out the fact that certain persons were in the receipt of very large salaries with very little work to do. This inquiry resulted in reforms. Attention has now been called to the Fund in a very startling manner by the death of Dr. Anstie, an eminent physician and hygeist, who had been called in to attend some children in the Fund School at Wardsworth, where a mysterous epidemic, attended by several deaths, had been raging. Dr. Anstie found the entire school suffering from blood poisoning, and turned his attention to the drains, pointing out certain defects which should be remedied. The managers, it is said, pooh-poohed the doctor as an enthusiast who was mad about drains. He has, however, given a strong proof alike of his judgment and his sincerity, for in consequence of his visits to the schools he has himself fallen a victim to the evils he pointed out.

THE REFORMED EPISCOPAL CHURCH.—Four hundred reformed prayer-books for the use of the New Church Congregation in this city have been ordered from Ottawa. The Bishop has made a formal demand for the library of Christ Church Sunday School, which was removed some four weeks ago to the Pandora Street Church building, the use of which was given *free* by the Trustees when the Bishop sought to charge rent for the use of Collegiate School building. It was stated, yesterday, by a legal gentleman who has been retained on the side of the Bishop, that legal proceedings will be taken against the Dean for officiating on Sunday last without a license! A handsome velvet Communion cloth and a silver service were presented to the Church.

CASSIAR.—It is a noticeable circumstance that the latest arrivals speak most favorably of these new mines. The opinion very generally expressed by those best qualified to judge is that the country is rich and that it will give a good account of itself next year. This year's operations were carried on under circumstances of unusual disadvantage; and yet there is good reason to believe that, for the time it was worked, Cassiar has yielded more gold than Cariboo. There can hardly be a doubt that large numbers of miners will repair to Cassiar next year, and it would be well that every possible means should be adopted towards increasing the facilities for supplying their wants.

THE steamer Isabel returned from Nanaimo about dark last evening with 160 passengers and $180,000 in gold dust from Cassiar. The passengers left the California at Nanaimo. About 80 miners will come down by the Maude, to-morrow and 60 went to Portland in the California, which sailed yesterday afternoon from Nanaimo. The fare on the Isabel was $4. The steamer also brought 80 tons of coal.

HIGHWAY ROBBERY.—On Sunday afternoon at ¼ past 2 o'clock a Chinaman in the employ of Dr. Moss was badly beaten and robbed of $35 by two men in naval uniform. There is some chance of the thieves being caught, as there were European witnesses.

THE London *Hour*, the new Conservative journal which took up the cudgels so vigorously in behalf of Canada with respect to our Railway treaty, is now the recognized organ of the Disraeli Ministry.

EARNEST CHRISTIANITY.—The October number of this interesting Wesleyan Monthly is out. It contains, in addition to the usual amount of useful reading, several very interesting papers on the Methodist Church work in this Province.

CROSSINGS.—The season has come when it behooves the City Fathers to look after the street crossings. We would especially direct their attention to those on Government street, some of which have completely disappeared.

RAILS.—The Dominion Government are now receiving tenders for rails for the Canada Pacific Railway, and it is expected that a portion of the first delivery will be shipped to the Pacific Province early next spring.

ONE CHAMBER.—Prince Edward Island, like Manitoba and Quebec, is considering the propriety of dispensing with the useless and expensive luxury of a second chamber or Upper House.

POSTOFFICE NOTICE. — Very important changes in the closing of mails are announced in this issue. Letters for the Mainland can now be posted at 7:30 a. m. on Tuesdays and Fridays. The office hours have also been lengthened.

KRUPP BEATEN.—The Austrian Artillery has been found far inferior to the Krupp guns, and to replace it by the latter will cost 15,500,000 florins, and require a period of three years.

SECESSION.—There are rumors of other and important secessions from connection with the Episcopal Church in this Province, which will be announced in a few days.

DEPARTURES.—The steamer Maude for the East Coast, and the Enterprise for New Westminster, sailed yesterday.

THE official List of Letters remaining at the Victoria Post-office will be found in the advertising columns to-day.

TO CHIMNEY SWEEPERS.— Tenders are wanted till the 16th inst. at the Naval Yard for sweeping the chimnies for one year from January 1st, next.

THERE is some talk of certain parties chartering the Isabel to go to Wrangel for a load of passengers.

The Bishop and his Duty.

EDITOR COLONIST.—As the "Standard" says in its issue of Monday, no doubt the Bishop did preach a very able sermon on Sunday at Christ Church, and no doubt laboured hard to show his few followers that he was perfectly correct, that he had a right to preach any doctrine he chose and that any one differing in opinion from or refusing to follow him, was guilty of heresy and schism. Had the Bishop been living a century ago such things might have been taken for granted; but the people are too enlightened at the present day to take all that Bishop Hills says to be truth. Was that church built by the people of this city for him and his few followers to advocate Ritualism in. Was that organ purchased by the influence and money of the spirited and Christian-like ladies of Victoria to assist him to force his doctrine upon the people of this Province? All his begging and hypocritical cant could never have erected that church. I might as well tell him at once that the people erected that Church for the good Dean and not for him. Let him look at home and see if the schism he speaks about does not rest there. The people have not left the Church of their forefathers, for the Dean remains at the head of that church in this Province; but they have left Bishop Hills and his obnoxious doctrines. Does Bishop Hills think the people ought to follow him blindfold? They judge a man now by his actions.

The people that subscribed so liberally towards Christ Church, until he showed his true colours, can keep the new church afloat in spite of all the power that he can dash against it. Let him earnestly pray that he may be led to see his faults, and be taught to adhere strictly to the true principles of Church of England in future, humbly regretting the sin that caused so many of his flock to desert their old and long-loved church. Let him study that sermon and see if it does not apply to him more than to his lost congregation; let him alter his course and return to the faith handed down by our forefathers. Who but such tyrants as himself caused all the dissensions in the church? But for such men as him, should we have to-day so many different denominations all sprung from the Church of England? If the people here could devise a plan to get rid of the Bishop as quickly as they did to take the Dean out of his claws, it would be a blessing to the Church of England in this Province, for it is tottering to the very foundation.

CHURCHMAN.

The "Seamless Robe," &c.

EDITOR BRITISH COLONIST. —I read with disgust the falsehood printed in the "Bishop organ," that 150 persons were present at Christ Church Cathedral on Sunday morning. Allow me to state that not more than 70 people were present; more than a quarter of those were children from Angela College. Taking the adults, I do not honestly believe there were more than 55 present at the outside. So much for a falsehood. Let the Bishop content himself with preaching to those members of the Cathedral congregation who wish to remain and hear his "most eloquent" discourses. They may be eloquent, but we detest and despise his Ritualistic doctrine. The very idea of his saying to a thinking community and insulting, I might say our dear Pastor and the late members of the Cathedral (who assembled to hear the Rev. Mr. Cridge), by saying that we had committed the sin of rending Christ's seamless robe—breaking the unity he prayed so earnestly for. Shame!

I would earnestly suggest that the Bishop would leave us alone and attend to his own Cathedral which he wanted and fought for, and has won the victory—a sorry victory. May he rejoice in the part he has taken, and may his sleep be as peaceful as he deserves, and no more.

We can fight our way through the whole of this trouble without asking him to help us, and let him consider and remember to the day of his death that through tryanny he has caused a split in the Church of England of world renown now, and has driven us out through doctrines we despise to follow. At the same time let him also remember that not one who has left will ever return to him or his Cathedral till he is no more. As the prayers (we are told) of the righteous availeth much, so the more prayers offered up in the Cathedral for this object will drive us the further away.

ONE OF THOSE WHO HATE
RITUALISM.

Victoria, Nov. 2nd, 1874.

A Flagrant Case.

VICTORIA, Nov. 3, 1874.

EDITOR COLONIST:—I thank you for the notice you took of my last communication respecting the iniquity and neglect of the Government as regards the Assize Court not being held in this city. The Government organ endeavours to justify the parties to blame (in which the so-called organ entirely fails in my opinion.)

I would now wish to call your attention to another act of great cruelty and inhumanity which has just come to my notice. I was asked a few days since to contribute to a fund to provide a suitable place for an unfortunate man of the name of McClure, who has been kept since last August in a cell in the City Gaol, because there was no room for him in the hospital. This poor man, it appears, is quite out of his mind, is totally unable to move, and is altogether unable to take care of himself in any way. I was also informed he had been an inhabitant of this town for many years, a baker by trade and an excellent workman; but the cursed whiskey had destroyed him. He was in the first instance taken in custody by the police, but was discharged by the P. M.; since when, more than 3 months, he has been lying in the above state.

I replied to the party soliciting that I was a subscriber to the Hospital, where the man ought to be; and I would ask you, sir, what that Institution is for, or why the Lunatic Asylum can not take him in? Here we have a man left in prison for no offence, lying in a cold cell, attended to by prisoners and in a dying condition. Is this humane? If so I have forgotten the meaning of the word humanity. Unless your independent paper will take such matters up no remedy will be adopted to cause the proper authorities to take action in such cases.

Trusting to your usual kindness, I hope you will bring this before the public so that some means will be adopted for the relief of this poor man. I am, Sir,

A SUFFERER.

Further Details of the Late Guatemala Earthquake.

PANAMA, Oct. 18.—A Guatemala paper gives the following account of the earthquake of September 3rd: The losses in this Department are calculated to be from $200,000 to $250,000, including farmhouses, machinery and storehouses, in which cochineal was buried under the ruins. The number of the victims cannot be exactly stated because many dead bodies remain buried under the stream of mud which descended from Cerero del Trata. In Luiga alone over thirty persons perished, the greater part being women and children. It is estimated that twenty-five bodies were buried in other towns, and a hundred, more or less, wounded. The town of Duenos is entirely ruined. A short distance from Duenos and near the coffee farm of Seinza, in a place called La Estansia, there was an extraordinary promontory of mud which had descended from the hights of Cerro del Trata. The promontory had in some places a depth of 10 feet; it was formed by eruptions of mud geologists call salos, and which generally is not a good sign for border countries. The eruption which produced this promontory consists of solid mud, which, though compact, carried in its current enormous masses of stones, trees, etc. The Government has ordered supplies of flour from Salvador and California. A subscription is being raised in Gautemala for those families who have suffered by the last earthquake. The Departments of Sacatepeger and Chilatenago have also suffered considerably.

The "El Progresso" of Guatemala of the 6th ult. gives the following additional news: A telegram to the Government from Antigua, dated the 4th ult., says the cousequences of the earthquake of last night are very serious. There were fourteen deaths in Antigua, five in Duenos, five in Joccatango, and one in San Pedro. The town of Duenos is entirely ruined, and Alowllango and Cindad Vieza very much damage. The city of Amattar has also suffered considerably, but there was no loss of of life." A telegraphic despatch to the Government from Minister Samayoa, dated Antigua, September 4th, stated that the President has gone through the city and found twenty-six victims, mostly women, who lived in some old ruins. In Patizea much damage was done and one hundred deaths are reported.

Another dispatch from Antigua, dated the 5th ult., says the President has returned from Duennos. The Church and Cabliddero had suffered much, and farm houses in the neighbourhood and native huts had remained intact. Two rivers which descended from the volcano overflowed the city and carried away some huts, with about twenty victims. At Chimultango, on the 6th ult., the President telegraphed for surgical aid. The people of this place were in a state of consternation at the effect of the earthquake Vila de Saragoza, Patzica and Islapa were ruined completely. Provisions were forwarded and all aid possible. This last dispatch says the victims might be 200, more or less.

A BIRD GHOST STORY.—The "Athenæum, noticing a book on birds, says: Birds have a great fear of death. A hen canary belonging to the author died while nesting, and was buried. The surviving mate was removed to another cage; the breeding-cage itself was thoroughly purified, cleansed, and put aside till the following spring Never afterwards, however, could any bird endure to be in that cage. The little creatures fought and struggled to get out, and, if obliged to remain, they huddled close together and moped and were thoroughly unhappy, refusing to be comforted by any amount of sunshine or dainty food. The experiment was tried of introducing foreign birds, who were not even in the house when the canary died, nor could, by any possibility, have heard of her through other canaries. The result was the same, no bird would live in that cage. The cage was haunted, and the author was obliged to desist from all further attempts to coax or force a bird to stay in it.

A. GILMORE has just received a large invoice of *Oregon Tweeds and Flannels*, also, a large lot of *White Patent-fitting Shirts*, which will be sold CHEAP. Also, *Overcoats and Raglans, Boys' Clothing* and *Hats* of all sizes. ***

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superseded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared at his premises on Fort street, and sold by all the principal dealers. ***

Transits of Venus.

Several of the scientific journals of Great Britain have elaborate articles on the subject of the transit over the sun, which will take place on the 9th of December next, and for the observation of which the British government has voted a sum of $125,000, supplemented by grants from the governments of France, Germany, Russia and the United States. There will be many stations, those for the English observes probably being the Island of Woahoo, off the east coast of Australia; Kerguelen's Island, and Rodriguez Island, in the South Indian Ocean, at Auckland, New Zealand, and at Alexandria. It is thought that Russia will occupy about thirty stations, while France, Germany and the United States will furnish about twelve each. It appears that the observations of the transit of 1769 were due principally to Dr. Halley, who first suggested this mode of measuring the distance of the sun from the earth in 1716. The transit which will occur on the 9th of December will not be visible in England, but will be distinctly seen in New Zealand, Australia, the East Indian Archipelago and various parts of Southern Asia. It appears that the transit of Venus which was observed by Captain Cook's expedition at Othaheite in 1769 led to the calculation that the distance of the sun from the earth was 95,300,000 miles. It has since been considered—better astronomical instruments having come into use—that the distance is 91,750,000 miles.

The next transits of Venus will be on December 6, 1882; June 7, 2004; June 5, 2012; December 10, 2117; December 8, 2125; June 11, 2247; June 8, 2255; December 12, 2360; December 10, 2368.

GUIZOT'S ESTIMATE OF NAPOLEON III—The "Moniteau" publishes a private letter written by M. Guizot in March, 1860, in which the Emperor Napoleon is thus described: "As to historical personages, you are quite right in considering him who at this moment occupies the scene a singular one, and in saying that unless people understand him they can understand nothing of what is going on. Never did a man exercise more influence over his age, and occasion more events with less personal greatness, whether of mind or of character. He alone is responsible for everything. His contemporaries have only to answer for a single thing, the eagerness or apathy with which they let him act. That will be quite enough for them in history. He begins, moreover, to be much embarrassed by what he has done. He has raised I don't know how many questions which he cannot solve. He has made war, he has made peace, and his successes, military and pacific, have only brought him to a position full of embarrassment and potence. He is forced to declare this himself publicly, and to renounce the regulation of the future which he wished to do after having overturned the present. I do not know wether this experience will give him a distaste for beginning other subjects, ending in his being one day equally powerless to regulate them. I wish it more than I expect it. He is strangely wanting in foresight, and is equally wedded to his schemes, and haste in getting tired of the labour and tedium of carrying them out."

WORTHY OF ATTENTION—A series of popular monthly publications issued from the well-known house of Cassell, Petter & Galpin, London. They are profusely illustrated from designs by Dore and other celebrated Artists, and are replete with information useful, instructive and entertaining, and when once introduced they will become a welcome visitor to every family. They can be bound here neatly and inexpensively in volumes when completed as may be preferred. Mr. S. W. James, who has undertaken to canvass for subscribers, will give all the necessary information relative to prices, etc., and will also have with him specimen copies, which will recommend themselves.—T. N. HIBBEN & Co. ***

NO ONE should be without one of the most useful little instruments ever invented. The "LITTLE GEM," for marking linen, cards, books, &c., &c. Each name is set up in type and can be changed in such a manner that one instrument, with a few extra type, will suffice for a whole family. For sale at T. N. HIBBEN & Co.'s, Government street ***

RAYMOND SEWING MACHINES.—These favorite machines are easy to learn, durable and light running—and have all the newest fittings. They make a beautiful stitch and sew light and heaviest work All who have purchased these machine testify to their excellence. "The Raymond Lockstitch Machines" are made in three sizes. To further recommend these machines a limited number will be let ont on hire. A supply lately received by A. B. Gray, sole Agent in B. C.—Albion House, 31st July. 1874. ***

THE VICTORIA BINDERY.—Books of all descriptions bound in elegant Turkey, Morocco or common sheep. Paper ruled to any pattern. Receipts numbered and perforated. Charts or Maps mounted on linen with rollers attached, or with cover suitable for the pocket.—R. T. WILLIAMS at T. N. Hibben & Co's. ***

WORTH NOTICING. — An entire new stock of *Fine Gold and Silver Watches and Chains* and a splendid assortment of every description of *Jewelery and Clocks*, all of late selection, are offered for sale at LOW FIGURES by G. W. A. LANGE, Yates st., Victoria, B.C. 3m***

SEASONABLE.—At London House there is an immense assortment of Umbrellas in Gingham, Alpaca and Silk of all qualities and sizes at extremely low prices. ***

NEW STYLES OF TYPE for Circulars, Billheads and Cards, just received at the BRITISH COLONIST STEAM BOOK AND JOB PRINTING OFFICE. ***

Who Invented Sausages? not HEYWOOD.

A correspondent asks us this question: "Who was the inventor of sausages?" We answered: It was unknown. Julius Cæsar claimed to be the inventor, but historians and commentators have universally scouted his claim. There is no doubt in the minds of the best informed writers on the subject but that the Germans were the inventors of the sausage, and that Cæsar in his wars against the stubborn German tribes became acquainted with their way of making the sausage. On his return to Rome, after crossing the Rubicon, he tried to induce the inhabitants of the Imperial city to adopt it as an article of food, but the Romans were rich, they fed on luxuries garnered from the lands which they had conquered and they rejected the sausage. On the morning of the day of his death at the hands of the conspirators, Cæsar sadly informed his wife that Imperial Rome was tottering to its fall, and that fall was hastened by its rejection of sousages. It is a singular and extraordinary fact—one quoted by the great historian Simanides, and Gibbons, and Niebuhr—that no nation has been great as a military power, in modern times, which did not make sausages one of its prime articles of diet. The recent war between Germany and France proves this. Seventy-five years ago the French were intensely fond of sausage, then they overran Europe. But, like the Romans, they took to luxurous living, and the downfall of *la belle France* followed.

The Germans have always been a warlike nation. They have always been eaters of sausage. The greatest general of modern times, Moltke, dines upon sausage three times a day. He says that no man who is not a lover of sausages can ever make a great general. Some years ago he was called upon while at breakfast by a young officer. He was eating his usual meal of "wurst and pumpernickel," and asked the young officer to join him. The offer was declined on the ground that he never could eat sausages. "Sir," said the great general, looking at the officer with flashing eyes, "the man who cannot eat sausages need never expect promotion from me." The young officer at once applied himself so assiduously to the cultivation of a taste for sausages that in the late war he had risen to be General Von Moltke's chief of staff. A distaste for sausages led to the dismissal of a wooer of the General's daughter. She afterwards married a manufacturer of sausages with her father's approbation, and she is now the happy mother of eight healthy sausage-eating children. Were anyone to say in General Von Moltke's presence that sausages were made out of refuse dogs, he would regard it as a mortal offence. And yet he has never accounted for the decadence in the number of dogs in Germany since sausages became the national food, as frogs are that of the French, potatoes and herrings of the Irish, beef and plum pudding of the English, buckwheat cakes and tobacco of Americans, and Heywood's Pork Sausage of British Columbians. ***

PHOTOGRAPHY.—We have been requested to announce by Mr. N. Shakespeare that he has perfected arrangements with Mr. R. B. Desmond, late artist of Spencer's Gallery, whereby his services are transferred to the Shakespeare Gallery from this date. ***

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers through out the Province. ***

Prince of Wales Birthday RACES.

THE FOLLOWING GENTLEMEN HAVE formed themselves into a Committee for the purpose of carrying out races in honor of the day:

F. J. Roscoe, Esq., M. P. — H. Nathan Esq.,
Col. Houghton, — J. C. Davie, M. D.,
J. Davies, Esq., — R. Smith, Esq., M.P.P.,
W. M. Niffe, Esq., — F. Saunders, Esq.,
J. W. Williams, Esq., — G. Richardson, Esq.,
A. W. Vowell, Esq., — J. T. Howard, Esq.
T. L. Briggs, Esq.

H. C. COURTNEY, Esq., Hon. Secretary.
C. M. CHAMBERS, Esq., Hon. Treasurer.

1st Race—Trial Stakes for $100, Single dash of a mile; weight, 10 stone. Entrance fee, 15 per cent.

2d Race—Prince of Wales Stake; purse of $200; 1 mile heats, best two in three. Entrance, 15 per cent.

3d Race—Trotting Race in harness for a purse of $50; one mile heats, best two in three. Entrance, $10 added.

All Entries closed on Saturday evening, Nov. 7th, at 8 o'clock, at McNiffe's, at which time Judges and Starter will be appointed.

In all the Races three horses to enter and two to start or no public money will be added, and open to all comers.

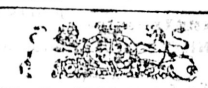

Messrs. McNiffe, Richardson and Saunders have kindly consented to collect subscriptions no11

DUFFERIN.

[L. S.]

CANADA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c., &c.

To all to whom these presents shall come, or whom the same may in anywise concern, GREETING:

A PROCLAMATION.

T. FOURNIER, Attorney-General, Canada. } WHEREAS by an Act passed by the Parliament of Canada, in the Thirty-Seventh year of Our Reign, intituled "An Act to amend certain Laws respecting Indians and to extend certain Laws relating to matters connected with Indians to the Province of Manitoba and British Columbia," it is in effect enacted that the Governor in Council may, by Proclamation, exempt from the operation of the several acts therein mentioned or of the Act now in part recited or from the operation of any one or more of the clauses of any one or more of the said Acts, the Indians or any of them or any tribe of them or the Indian Lands or any portions of them in the Province of British Columbia.

AND WHEREAS we deem it advisable that the Indians and every of them and the several tribes of them in the Province of British Columbia should be exempt from the operation of the eighth clause of the Act now in recital,—

NOW KNOW YE that, by and with the advice of Our Privy Council for Canada, we do, by virtue of the authority vested in us as hereinbefore recited,—Proclaim, order and declare that the Indians and every of them and the several tribes of them in the Province of British Columbia are, by this Our Royal Proclamation, exempted from the operation of the eighth section of the Act of the Parliament of Canada passed in the Thirty-Seventh year of Our Reign intituled "An Act to amend certain Laws respecting Indians and to extend certain Laws relating to matters connected with Indians to the Provinces of Manitoba and British Columbia:" And we do hereby exempt the Indians and every of them and the several tribes of them in the Province of British Columbia from the operation of the said eighth section of the said Act accordingly.

Of all which Our loving subjects and all others to whom these presents may come, or whom the same may in anywise concern, are hereby required to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. WITNESS Our Right Trusty and Well Beloved Cousin and Councillor, the Right Honorable Sir FREDERICK TEMPLE, Earl of DUFFERIN, Viscount and Baron Clandeboye of Clandeboye, in the County Down, in the Peerage of the United Kingdom, Baron Dufferin and Clandeboye of Ballyleidy and Killeleagh in the County Down, in the Peerage of Ireland, and a Baronet, Knight of Our Most Illustrious Order of Saint Patrick, and Knight Commander of Our Most Honorable Order of the Bath, Governor General of Canada, and Vice Admiral of the same.

At Our GOVERNMENT HOUSE in Our CITY OF OTTAWA, this TWENTY-SIXTH day of AUGUST, in the Year of Our Lord, one thousand eight hundred and seventy-four, and in the Thirty-eighth year of Our Reign.

By Command,
R. W. SCOTT,
Secretary of State.

Dentistry.

DR. BARNARD

HEREBY TENDERS HIS SINCERE THANKS to Dr. Thompson, of Portland, and the Ladies under his charge, who kindly permitted his witnessing the fittings of some of their teeth during his late sojourn in this city.

Every manipulation of the Doctor's was closely watched, from the adjustment of the Rubber Dam and its appliances to their teeth, to the formation of proper cavities and retaining pits therein, the Packing and Condensation of Gold and the subsequent polishing and burnishing of the same.

The Doctor is satisfied, from what he saw, and from recent operations of his own, that no perfect Filling can be accomplished without using the Rubber Dam and separately Annealing and Malleting every strip of gold into the cavity by itself. Gold thus condensed must last a lifetime.

DR. BARNARD is happy to inform the public that the process of preparing and Filling a Tooth with the aid of New Instruments and appliances is almost as much a pastime with him now as is the insertion of Partial or Entire Sets of Teeth.

Persons not born with a gold tooth in their mouth can readily have a Gold Crown built on a decayed tooth or solid portion thereof that will LAST FOREVER.

OFFICE: DOUGLAS ST., SOUTH OF FORT, FIRST HOUSE ON THE RIGHT.

☞ REMEMBER—Rubber Dam, Green's Improved Electric Burring Engine and the best Filling Instruments of the highest authorities and manufactories in the States.

ALL OPERATIONS NOW LESS TEDIOUS AND PAINFUL

Gold, Silver and Vulcanite Plates quickly repaired and Whole Sets completed at the shortest notice.

CELLULOID PLATES long since discarded by the Doctor.

None but first-class Operations performed.

Notice to Mariners.

A BELL BUOY BEACON, PAINTED RED, having a square Cone on float 12 feet high, has been moored on "Kelp Reef," Haro Strait, in 11 fathoms of water, about one cable and a-half magnetic North of the extreme Southern reef.

The bell will constantly toll, but in very smooth water the intervals will be long.

Vessels passing or rounding the Beacon should give it a berth of at least two cables.

A penalty of Five Hundred Dollars will be enforced upon conviction of any person interfering with said Beacon.

JAMES COOPER,
Dept. of Marine and Fisheries, } Agent.

Medical.

DR. J. COLLIS BROWNE'S
(Ex Army Med Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE: that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely and mean no other than Dr Browne's—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma Cramp Rheumatism, Neuralgia, Cough, Hysteria, &c

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months severe suffering, and when other medicines had failed

Dr Lowe, Medical Missionary in India reports [Dec 1865] that in nearly every case of Cholera in which Dr Collis Brownes' Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox remedical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases,

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequent fatal results have followed

See leading article, Pharmaceutical Journal, Aug 1, p869, which states that Dr J. Collis Browne was the inventor of Chlorodyne: that it is always right to use his preparation when Chlorodyne is ordered. Sold in bottles at 1s 1½d, 2s 9d, 4s 6d, and 11s each.

CAUTION—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle,

Sole Manufacturer, J T DAVENPORT,
